

Probus

CONSTRUCTION

Client: Local Business
Project: New Training Rooms
Duration: 15 Weeks
Consultant: DTA Architects

Major alterations and fitting out of existing live commercial unit in forming new training centre together with a "Just in Time" stock facility.

Progress photos

The works involve:-

- Splitting existing warehouse Section of building into two with full height partitioning to form new materials collection point for technicians,
- Constructing three new training rooms on existing mezzanine all to match existing offices,
- Stripping out, reconfiguring and fitting out reception area, atrium and first floor offices,
- Enlarging and reconfiguring existing office car parking,
- Works have continued throughout the current crisis by creating and rigorously observing H&S guidelines and restrictions.
