CONSTRUCTION

Client: Local College
Project: Major Upgrade to Food Technology Department
Duration: 6 weeks
Consultant: Peter Smith Associates

Fast Track upgrade project to strip out existing 1980's kitchen from College Food Technology Dept and install 4 no. new industrial kitchens.

The works also included replacing all ducting with a modern system, the redesign and replacement of external windows to allow connection with the existing external extractors.

The CDP's included M&E with provision of "As Built" drawings and our works required some out of hours working and specific Risk Assessments in relation to working alongside children and restricted delivery times.

The programme covered the whole of the College's summer recess and the start of the term necessitating specific working arrangements with regard to a live school environment and robust Covid 19 precautions.
